PHOTO SUBMISSIONS

I create my paintings based directly off of a supplied photo of your home. This is the very best way for me to truly capture the unique qualities that make the architecture so special.

Large, high quality, and well-lit photos are needed for the paintings. Below is an example of an ideal photo for a portrait:

This photo is brightly lit, clear and crisp, and showcases not only the entire home, but also the surrounding landscaping. I am able to zoom in on the photo to see the tiny details of the moulding, the windows, etc. I am also able to easily see the coloring of both the siding and the roofing.

Please feel free to send me several photos of your home! If more than one photo will work for a painting, I will mock up each one for your review to select from!

Please attach your photo(s) to the e-mail that you send with this inquiry form.
